

Web Developer

Full time 37.5hrs a week

We have a unique opportunity available for a full-time Web Developer to join a small creative design studio in Stratford-upon-Avon, Warwickshire. Working with a fun and lively team you'll be based in the heart of Stratford-upon-Avon, just a stone's throw away from the River Avon and the RSC Theatre.

The chosen candidate will need a solid knowledge of PHP, HTML, CSS, and MySQL, preferably, some familiarity with JavaScript/jQuery/WordPress and Amazon AWS. The chosen candidate will need to have a minimum of 3 years relevant industry experience and will be expected to bring fresh ideas and technological insight to all areas of the business and the services they offer.

Key skills required:

- HTML/CSS
- PHP
- MySQL
- JavaScript/jQuery
- Domain name management
- Linux Server (WHM, cPanel) Administration and maintenance
- Experience of using graphics software (Photoshop CC) to prepare graphics/images for the web.
- Good understanding of Version Control

Desired skills:

- Amazon AWS
- UX/UI
- WordPress
- Knowledge of Google Apps (incl. Tag Manager) to help with the User Experience and SEO strategy.

Key responsibilities:

- Working directly with clients to gather and refine specifications and requirements based on technical needs.
- Development of new functionality from client feedback, taking customer requirements from concept through to delivery.
- Work on multiple projects at any one time, ranging between both front and back end development.
- Diagnose and troubleshoot problems with existing websites.
- Working closely with our design and marketing team to deliver high quality projects.

Candidate qualities:

- Clear communicator
- Attention to detail
- Enthusiastic
- Self-motivated
- Organised
- Time management skills
- 3 years relevant industry experience

If you're looking for the next step in your career as a web developer in the Warwickshire area then we want to talk to you.
